Corporate Lifecycles

– Ichak Adizes - 1988

Stage	Issues	Necessary Focus
Stable	Sustaining the machine.	
Prime	Department turfs, alignment issues, struggle to find and train managers.	
Adolescence	Shift toward working smarter, more focus on profits, efficiency, consistency.	
Go-Go	Too many opportunities, reactive, overlapping tasks, struggle to delegate.	
Infancy	Risk, negative cash flow, no management depth.

Operations	Sales	Customer Service	Accounting

Video #9

Elliott's Conundrum (Puzzle)

What makes one person's role in the organization different from another person's role?

- Level of Work Capability Scope of Authority
- Contribution to Profit Experience
- Size of the Role Compensation
- Complexity of the Work Span of Control

How can that difference be measured within an organization, across an industry, in different countries, on different continents, under different currencies?

The Scientific Measuring Stick

T _____ **S** _____

the length of time a person can effectively work into the _____, without direction, using discretionary judgment (to make decisions, solve problems) to achieve a specific _____.

Video #17

Management Myths

Which of these have you tried?

- Make everyone an owner
- Flatten the organization
- Self Directed Work Groups
- Reengineering
- Ropes Courses
- Myers-Briggs
- Pay for performance
- Motivation (well...manipulation)

What would I do differently?

Inside the Gearing Process

- Roles
- Organizational Structure
- Managerial Relationships
- Hiring talent

Video #18

Identifying Levels of Work in the Role Description

IV	This role - _____ systems into a whole system.
III	This role - creates the _____.
II	This role - _____ production gets done.
I	This role - _____.

Typical Role Titles

Accounting	
CFO, Finance Director	IV
Full Charge Bookkeeper, Controller	III
Payroll Compliance	II
AR, AP, Billing Clerk, Filing	I
Research & Development	
Director of Research	III
Research Program Manager	II
Research Associates, Testers	I
Sales	
VP Sales, Director of Sales	IV
Sales Manager	III
Account Manager	II
Sales Associate, Order Taker	I

Plant Production	
Production Manager	III
Line Manager	II
Line Lead, Line Worker	I
Quality Control	
Quality Manager	III
QC Specialist	II
Inspector	I
Project Management	
Sr Project Manager Construction Manager	III
Project Manager Foreman	II
Team Leader, Direct Labor	I

Video #19

Behavioral Symptoms Caused by Mis-match

When the level of work **required in the role** is longer than the time span **capability of the person**, what behavior do you observe?

When the level of work **required in the role** is shorter than the time span **capability of the person**, what behavior do you observe?

Video #20

Ranking Exercise

List those team members for whom you are the manager, then rank them from longest time span to shortest time span.

List

- _____
- _____
- _____
- _____
- _____
- _____

Rank	Team Members

Gearing - Matching Applied Capability with Level of Work

Customer Service Manager

Video #21

KRA	Task	Output	I	II	III	IV	Subj	Mgr	MOR
Sched	Staff Front Desk	Enough People Minimum OT							
Recruit	Staff Front Desk	Enough People Minimum OT							
Sales	Expedite Service	Customer uses us as Single Source Supplier							
Plan	Plan Personnel Calendar	Publish and Execute 12 Month Calendar							

What is a Manager?

That person held accountable for the output of other people.

Video #22

Managerial Relationships - Principle

Every Employee is entitled to have a competent manager with the time span capability to bring _____ to decision making and problem solving.

Video #23

Hiring Talent

The Hiring Manager, left to own devices, has difficulty hiring one level of work below.

IV			Candidates 
III		Hiring Manager	
II		Open Role Why is this a difficult hire for the hiring manager?	
I			

The Manager Once Removed

Creates the qualified talent pool.

The Hiring Manager

*With minimum veto authority,
Selects from the qualified talent pool.*

Identifying Applied Capability – 3 Methods

1	Ranking Exercise	Internal Candidates
2	Effectiveness at Level of Work using Role Description	Internal Candidates
3	Applied Capability Interview  Video #24 <ul style="list-style-type: none"> ▪ Interview (for range) ▪ Testing (for accuracy) Internal Candidates 	Internal Candidates External Candidates

Interview Questions to Identify Applied Capability

Illustrative transcript – Interview One of Four Interviews

Adapted from

Time Span Handbook © 1964 Elliott Jaques

Ringo's Interview

I want to talk about your job, your role with the company.

1. Tell me, what is your job title?

Carpenter

2. Describe, generally what you do?

Finish-work, I am on the installation crew. We get the cabinets in place and nail in the trim.

3. How are you given work assignments?

In the morning, we get together, count the boxes to be installed, eyeball our raw millwork, to make sure we have enough, then get to it. We have drawings taped to the wall in each room so we know where things go.

4. How often are you given work assignments?

We have two meetings a day. The morning meeting and then one in the afternoon to clue us in on the following day. Sometimes we move from one job, one day, to another job, the next day.

5. When you complete a work assignment, how does your manager know?

Generally, our crew chief is walking the job from room to room, so he knows pretty close. We're in constant touch.

6. When you complete a work assignment, how do you know what to work on next?

Most of the time, if it looks like we will finish a room or a wing in the middle of the day, we will schedule a mid-day meeting. The crew chief doesn't want us to get the specs for two different setups mixed up.

7. Does anyone review or inspect your work?

Each crew has a crew chief.

8. How often is your work reviewed or inspected?

Our crew chief seems to constantly inspect. He comes behind, verifies a few measurements, looks at the finish-work. He doesn't want us to get too far ahead in case we have to come back and fix something.

9. Are you permitted (or directed) to continue on additional work before your current work has been reviewed?

We can work ahead, as long as it's in the same room or wing, so we don't get too far away. And we generally don't strike our ladders and tool boxes until we've been given the all clear to move on.

10. Do you work on multiple assignments simultaneously? Describe?

We could work on installing cabinets and do trim work during the same morning, it has more to do with proximity than anything else.

Length of longest Time Span task - _____ Level of Work - _____

Driving This Into Your Organization

Identify the Project Champion.

Must be an internal player, Level of Work IV or above.

Introduction to Time Span.

On-site workshop or online timespan101.com

Design Your Organizational Structure

1. Functional strategy defined by business model
2. Define the operating and support functions
3. Identify the level of work in each function
4. Define the roles in each function
5. Identify managerial relationships in each function
6. Map cross-functional relationships between functions
7. Assess existing personnel to level of work
8. Reassign and/or recruit
